Who are we?

The social enterprise and digital brokerage service, The Local Offer, has been immersed in the reforms of SEN & disability. The enterprise champions a growing network of specialist & targeted cross-sector services and has a breadth of knowledge of their needs and challenges. The Local Offer provides simultaneously a platform for local authorities to share their practice and local offers and raise awareness of diversity of specialist provision, locally, regionally & nationally.

Kaizen have been developing engagement thinking and practices over many years. A diverse range of clients include local authorities, schools, young people in care, charities, premier league football clubs and more. Their consultations capture the voice of the individual at the heart of the project, an essential and statutory requirement for local authorities developing and maintaining their local offers.
